MOSS therapeutic experiences were curated from practices and philosophies found in archives of ancient healers and heritage.

THEIR — Story

MOSS of the ISLES was created to explore the deep heritage of wild-crafted plant alchemy that has been used for millennia throughout the Irish and British Isles.

Like our ancestors, we believe that our bodies are intrinsically tied to the land and to the tides. We have learned, through our years of research, that natural remedies are the key to holistic wellbeing.

Ethically and sustainably sourced, MOSS of the ISLES harnesses our natural landscape's most powerful elements to create products and regenerative experiences that are anchored in the vast, healing history of our lands.

Like our ancestors, we believe that healing is an awakening and an awareness of self, of soul, and of the richness of nature.

EXPERIENCES

MOSS of the ISLES protocols creates a shift of kinship with our locally and sustainably sourced ingredients and our connection to the land and to the tides.

Their treatments are a celebration of the wild, therapeutic heritage and richness of our lands and of the wisdom of our ancestral healers' connection to nature, and their understanding of balance and energy.
